

- DALI Controller to Manage up to 10 MHUBs
- Built in accordance with IEC 62386-202
- Low Power Consumption
- Features Power Isolation for Maintenance
- Can be Connected in Multiple Arrangements
- Use with Monitor Pro, SimpleCore and CircaLite

The Monitor MCONTROLLER is designed as a wall mounted, modular enclosure which can be mounted along with, or away from the MHUB enclosures it manages. The enclosure is installer friendly with many knock outs for mounting and cable entry.

The Monitor MCONTROLLER will manage up to 10 MHUBs, feeding data back to the Controlling PC. The MCONTROLLER can be connected in a network arrangement of infinite proportions.

There is one version available -

## Order Codes

<b>MCONTROLLER/ENC</b>	Modular enclosure containing 1No. Monitor Controller with 5 port un-managed network switch. Will manage up to 10No. MHUB/2DALI/ENC1/SW.
