Description:

The OLP/2/DA DALI self-test bulkhead is a robust IP65 luminaire which offers 950 lumen in mains operation and 600 lumen in emergency operation. The high emergency output provided by this product in emergency makes it perfect for high ceilings.

The OLP/2/DA is manufactured with an opal diffuser which casts the light well over a wide arc and with a high light output ratio (LOR). Ldt files in both mains and emergency operation are available, please contact the Liteplan sales office who will be happy to send them to you.

If not connected to a DALI system, the OLP/2/DA will revert to standalone self-test operation.
