

- Suitable for Integral Applications
- Compatible with DALI Emergency Products
- Simple Installation
- Casambi Ready
- Active Node
- Includes DALI Power Supply

The CAB/1 is designed to convert a standard emergency DALI product to become Casambi Ready. Connections are made to the emergency control gear via a simple DALI+/DALI- pair.

The module is capable of being used for integral applications, however a remote version is available, if required.

The CAB/1 measures 80mm long x 30mm wide x 21mm high.

Order Codes

CAB/1 Casambi Enabled Wireless Node for Connection to DALI Emergency Control Gear

Technical Details:

Input Voltage	230-240V AC 50/60Hz 0.3A
DALI PS Consumption	I _{rated} - 80mA / I _{max} - 250mA
Range (indoor)	Up to 50m line of sight
Technology	Proprietary BLE Mesh (Bluetooth Low Energy)
IP Rating	IP20
Frequency	2.4 GHz ISM Band
T _a	-20° C to +60° C
T _c	75° C
Output Control	DALI-2

Liteplan declares that the radio equipment type CAB/1 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at liteplan.com
